

Description

Codes and standards require functional tests to introduce (simulated) smoke through the detector vents and into the sensing chamber. The FD330001 dispenser is the most popular device for achieving this, benefiting as it does, from a cup big enough for the great majority of detectors but still small enough not to be obstructive and unwieldy.

- > UL Listed
- > Approved by leading detector manufacturers
- > Dispenser and patented diaphragm contain particles conserves test gas / smoke
- > Strong - to withstand rigours of daily use
- > Spring-loaded mechanism - for effective, economic aerosol delivery
- > Clear cup - enables view of the detector LED while testing
- > Universal - suits most detectors
- > Designed for use at height and at angles
- > Interchangeable with all other tools on Solo poles
- > Lifetime Warranty

FD330001 for use with FDA3001
